

when facing 3 big blind raises. Against these players, it may be ideal to raise to 4 big blinds with your entire opening range. Do not take this concept of making larger than normal raises too far. If you start raising to 10 big blinds and your opponents play tightly, they will be playing well against you.

Between 12 and 40 Big Blinds

As stated in the cutoff section, from the button, your opponents' tendencies should be your main concern when selecting your pre-flop raising range. A good default starting range is the same one suggested in the previous deep stacked button section (*Diagram 21*).
